STEAM

BOOK, JOB, AND CARD

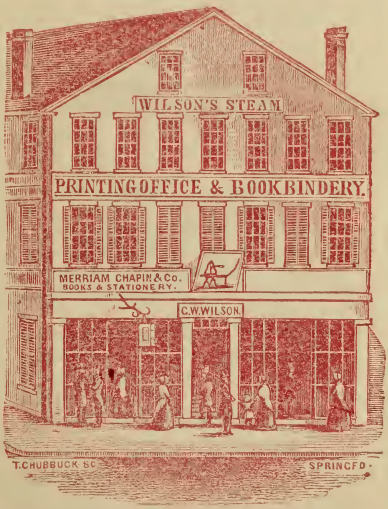
PRINTING OFFICE,

BOOK BINDERY,

— AND —

Patent Blank Book Manufactory,

CORNER OF MAIN & STATE STREETS,



SPRINGFIELD, MASS.

This is one of the most extensive Establishments in New England, and has recently been newly furnished with Type of every description, requisite to a complete Printing Office.

The Presses, which are run by steam, are new and of the most improved construction, and comprise a variety of patterns, calculated to execute work well and fast. In fact, it combines the best facilities for the prompt and workmanlike execution of every description of

Letter Press Printing,

BOOK BINDING,

And Blank Book Manufacturing,

Of any establishment between Boston and New York, if not in the New England States, and contains the fullest and best selection of every thing necessary to make up a perfect and modern Printing Office

Being no novice in either branch of our business—having *usurped* nothing—but received it as the legitimate result of a regular apprenticeship, at two of the best establishments ever in Boston, and, after years of extensive experience in all the details of this art of arts, (as perplexing and complicated as any in the world,) we feel confident that, with the *best of help always at hand*, we can continue to *take the lead* in the exercise of taste, and the correct and rapid execution of work.

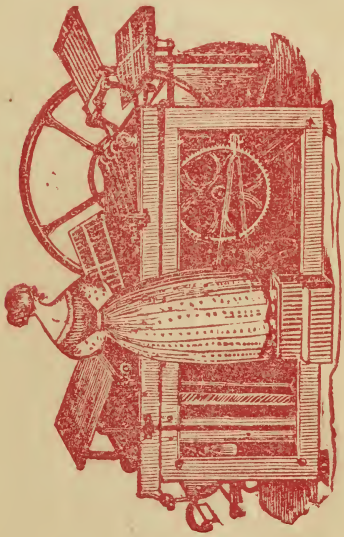
In this last particular—Promptness—we think we are *now* prepared to excel, beyond all dispute—our entire arrangements having been recently revised with sole reference to this result,—we can execute all orders, as promptly as any other establishment, subject to as few, or fewer, contingencies.

In our Composition Department,

We have the fullest and greatest variety of all kinds of TYPE, BORDERS, CUTS, ORNAMENTS, &c., &c.

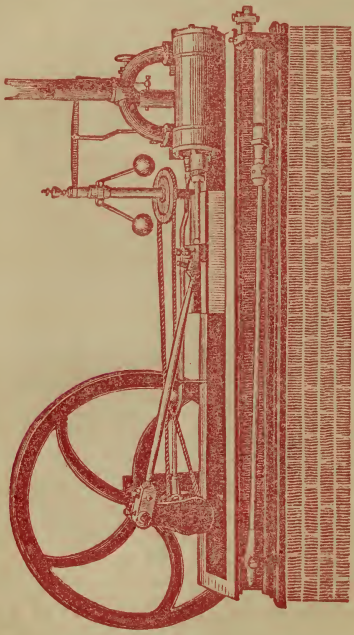
Some of our founts are enormous in weight.

Our Press Department



Comprises six of the best description of Printing Presses, (equal to twenty of the best in use twenty-five years since,) each of different size, in constant requisition, several of which, together with much assisting machinery, are driven by a

NEW AND ELEGANT STEAM ENGINE.



Our STEAM INKING MACHINE enables us to execute the printing of Cuts and fine work with great beauty.

Attention is specially called to our facilities for

WILSON'S PRINTING OFFICE.

COMMON AND EXTRA

BOOK & PAMPHLET PRINTING.

The facilities possessed by us in this description of work, are unsurpassed by any office in the State, out of Boston and Cambridge. Our founts of Book Type embrace the usual variety of sizes and faces found in the first class offices, while their unusual weight enables us to keep a larger number of pages in type, than most other offices in New England; thus securing the utmost dispatch, and affording extra accommodation to those in the extensive use of medical or other cheap circulars, requiring frequent editions and alterations.

For Blanks of every description,

We have no rival that can compete with us in promptness and perfection. Enormous quantities of Brass Rule, and perfection in adjusting Instruments, enable us to feel quite at home in the most elaborate designs and difficult pieces.

For Handbills, Programmes and Posters,

We have the fullest assortment of Type and Bordering designs and Ornaments, and, with our Steam Presses, we can execute them with great dispatch. We can print a larger Poster at one impression, than can be done at any other Job office in the State, except in Boston.

Circulars, Bill-Heads, Billets, &c.

For this description of Printing, we are also up with the best Metropolitan establishments.

Business and Show Cards.

The fullest assortment of every description of Stock and Type; the best and most rapid Press yet invented, and unusual promptness, is the grand secret of the immense business we have always maintained in this line. We trust that still further exertions, will enable us to improve our position in this department.

We manufacture the finer qualities and tints on our fancy Inks.

In the Bindery Department,

We always have been fully up to the best City styles of Job Binding and Blank Work. We have heretofore lacked only in promptness, and this evil we think we have fully subdued; if we have not, we shall not rest until we do, though the task is no easy one. No

department of our business requires more experience and indefatigable attention than this. We shall more fully than formerly put into it our personal experience and skill, and we trust still to stand without a rival.

Job Binding of every description,

Including the most elaborate Gilding and Marbling, done in our own Bindery, and under our personal supervision.

Patent Blank Books, Paged or Unpaged,

Ruled and Bound in any style, and WARRANTED. We *do not* say that we have the *only* Ruling Machine in Springfield, for this could not have been said in *truth* by any one, during the last 8 or 10 years, and deception is not our design; but we have, and always have had, a **GOOD RULING MACHINE**, upon which we have done, and are still in the constant habit of doing, good ruling; and, if at any time we have sent any of our ruling abroad, convenience and not necessity has prompted it. We have building to our order however, and nearly ready for delivery, a First Class

MODERN RULING MACHINE,

For the more rapid execution of the nicest description of work. The most difficult Ruling can be done by us as well as by any person in the country.

For specimens of our BLANK BOOKS, we would refer to some of the most prominent establishments in this vicinity, among which we will name—

Register of Deeds and of Probate Offices; Hampden Stock and Mutual Fire Insurance Co.; Massachusetts Mutual Life Insurance Co.; Berkshire Mutual Life Insurance Co.; Westfield Mutual Fire Insurance Co.; Town of Chicopee; City of Springfield; Homer Foot & Co.; J. W. Hale & Co.; A. P. Sherman & Co.; and a host of others too numerous to specify; besides to several specimens in our own use. We are fully pre-

pared with every requisite for this work, and can make the heaviest Blank Books to order, as well and as cheap as they can be done in any city in the Union. We have set apart a department exclusively for this purpose, and shall pay particular attention to it.

All our business will hereafter be carried on more particularly under our supervision than formerly; and

STRICTLY ON A CASH BASIS.

We shall purchase our Stock for Cash, and all work must be paid for in Cash or its equivalent, on delivery, except by previous contract. We are resolved not to be outdone by any other concern in the country, but to do it we must not spend all our time in endeavors to collect Bills. The *Cash System* is decidedly the best for all concerned.

PRICES.

Our prices will continue to be as low as any good and responsible establishment can afford to do good work for, in city or country.

Nec aspernandum quamvis exiguum lucellum, sed, Ne major benignitus sit quam facultates.

MEMORANDA FOR MAY.

THE ORIGINAL AGREEMENT

FOR THE

Settlement of the Plantation of Springfield.

May 14th, 1636.

When leave was granted by the General Court of Massachusetts to form settlements upon Connecticut river, and the first band of settlers had arrived at the site of the present City of Springfield, they entered into and subscribed to the following agreement, the original of which is in the first book of the records of the town :—

"May the 14th, 1636. — We whose names are underwritten, being by God's Providence ingaged together to make a plantation, at and over against *Agaam* on Conecticot doe mutually agree to certayne articles and orders to be observed and kept by us and our successors, excpt wee and every of us, for ourselves and in oure persons, shall think meet uppon better reasons to alter our present resolutions.

"1ly. Wee intend, by God's grace, as soon as we can, with all convenient speede, to procure some Godly and faithfull minister, with whome we propose to joyne in church covenant, to walk in all the ways of Christ.

2ly. Wee intend, that oure towne shall be composed of fourty family's, or if wee think meete after, to alter our purpose; yet not to exceed the number of fifty family's, rich and poore.

"3ly. That every inhabitant shall have a convenient proportion for a house lott, as wee shall see mete for every ones quality and estate.

4ly. That every one, that hath a house lott, shall have a proportion of the Cow pasture to the north of End Brooke, lying northward from the towne; and also that every one shall have a share of the *hasseky marish* over agaynst his lott, if it be to be had, and every one to have his proportionable share of all the woodland.

"5ly. That every one, shall have a share of the meddow, or planting ground, over against him, as nigh as may be, on Agaam side.

"6ly. That the Long meddowe, called Masacksick, lying in the way to *Dorchester*,* shall be distributed to every man, as wee shall think meete, excpt wee shall find other conveniences, for some for theyre milch cattayle, and other cattayle also.

"7ly. That the meddowe and pasture called *Nayas*, towards Patuckett, on ye side of Agaam lyeinge about fourer miles above in the ridge shall be distributed" [erasure of six and a half

* The way to Dorchester was, probably, to Windsor, then called Dorchester.

lines,] "as above said in the former order, and this was altered and with consent before the hands were set to it.

8ly. That all rates that shall arise upon this towne, shall be layed upon lands, according to every ones proportion, aker for aker, of house lotts, and aker for aker of meddowe, both alike on this side, and both alike on the other side; and for farmes, that shall lye farther off, a less proportion, as wee shall after agree except wee shall see meete to remitt one half of the rate from land to other estate.

"9ly. That whereas Mr. William Pynchon, Jehue Burr, and Henry Smith, have constantly continued to prosecute the same, at greate charges, and at greate personal adventure, therefore it is mutually agreed, that fourty akers of meddowe, lying on the south of End Brooke, under a hill side, shall belonge to the said partys free from all charges forever. That is to say twenty akers, to Mr. William Pynchon, and his heyres and assigns for ever, and ten akers to Jehue Burr, and ten akers to Henry Smith, and to their heyres and assigns for ever; which said fourty akers is not disposed to them as any allotment of towne lands; but they are to have their accommodations in all other places notwithstanding.

10ly. That whereas a house was built at a common charge which cost £6 and also the In-

dians demand a grate some, to bye their right, in the sayd lands, and also a greate shallope, which was requisite for the first planting, the value of which engagements, is to be borne by each inhabitant, at theyre first entrance, as they shall be rated by us till the said disbursements shall be satisfyed, or else in case the said house and boat be not so satisfyed for; then so much meddowe to be sett out, about the said house as may counter vayle the sayd extraordinary charge.

"11ly. It is agreed that no man except Mr. William Pynchon shall have above ten akers for his house lott.

"12ly. Annulled.

"13ly. Whereas there are two lowe pastures, the one lying towards Dorchester, and the other Northward from End Brooke. It is agreed that both these pastures shall not be fed at once; but that the time shall be ordered by us, in disposing of it for tymes and seasons, till it be lotted out and fenced in severalty.

"14ly. May 16, 1636. — It is agreed that after this day, wee shall observe this rule, about dividing of planting ground and meddowe, in all planting ground, to regard chiefly, persons who are most apt to use such ground. And in all meddowe and pasture, to regard chiefly cattel and estate, because estate is like to be improved in cattel, and such ground is aptest for their use. An yet wee

agree that no person, that is master of a lott, though he hath not cattel, shall have less than three akers of planting ground, and none that have cowes, steeres, or year olds, shall have under one aker apiece, and all horses not less than four akers, and this order in dividing meddowe by cattell, to take place the last of May next, so that all cattayle that then appeare, and all estates that shall then truly appeare at £20, a cowe shall have this proportion in the meddowe, on the Agawam side, and in the large meddowe Masacksick, and in the other long meddowe called Nagas, and in the pasture at the north end of the towne called End Brooke.

And if any transgress, this order, it shall be lawfull for the selectmen to appoynte men to pull downe, and demolish such building.

"It is also ordered, that on the first Tuesday in November, there shall be yearly chosen, by the Inhabitants, two wise, discrete men, who shall by virtue of an oath imposed, on them by the magistrate, for that purpose faithfully present, on the Court days, all such breeches of Court, or towne orders, or any other misdemeanors, as shall come to their knowledge, either by their own observa-

tion, or by credible information, of others, and shall take out process for the appearance of such as are delinquents, or witnesses, to appeare the sayd day.

In 1660 it was ordered, "That Laurence Blis is to pay for the chain of the steel-trap, which he lost; and there is in one of the townes one iron hook and eye, in the post of the gate going to the training place, and another at Thomas Coopers house."

ANCIENT COURT RECORD.

"Att the Countie Corte, held at Springfield, Sept. 30, 1684.

For the holding of this Corte there were present Major John Pynchon, Esq. Peter Tilton, Esq. Two of the worshipful magistrates of the Colony of Masachusetts.

Mary Towsley of Suffield being presented to this Corte for, and convicted of, many notorious mis-carriages,—viz — driving a trade of wicked lying, slandering, cursing, wretched scolding, murderous, threatning and dangerous languages for any neighborhood to hear, and for pound breach. This Corte being afflicted with the sense of such unheard of, incredible carriages, but unavoidable fruits of original sin, not restrained by the meet free grace of God, and all proven

against her, which tends to the dishonor of God, and the spoiling of all good neighborhood, and being desirous to prevent such wretched carriages, do adjudge the sayd Mary Towsley to be twice whipt, once at Springfield on the naked backe with fifteen lashes, and a second time at Suffield with ten lashes on the naked backe wel laid on, and that this Execution be done at Suffield by the space of two weeks after the Execution at Springfield, the Constable of Suffield taking his tyme for said Execution, as in his discresion he shall judge meete, and the Corte doth order that the Clerk shall send a coppy of said sentence to the Constable of Suffield, that he fail not to execute the same, — the Execution at Springfield was forthwith performed — and the Corte doth order and appoint said Mary Towsley to pay al charges occasioned by ye p'sentment, viz. 3s. to Constable Winchel and to James King 2s. to Gregory Gibbs 2s. to Goodman Stockwell, Thomas Hanchet 2s. apiece to Thomas Spencer and John Rising 3s. pr apiece.

About 1694 this town passed the following vote:

"Voted to send *Captain* Thomas Colton, and *Sergeant* Luke Hitchcock to the Bay for the procuring a minister, to preach the word of God to the town; and that they apply themselves to the Rev'd the President of the College, with the rest of the elders in Boston for their for the obtaining

a minister, that may promote conversion work among us."

Jan. 8, 1646.—"It is agreed by this Plantation with John Mathews to beate the drum for the meetings for a years space at 10 of the clock, on the lecture days, and at 9 of the clock on the Lord's days, in the forenoon only, and he is to beate it from Mr. Moxons to R. Stebbins house, and ye meetings to begin within a half an houre after, for which his paynes, he is to have 4d in wampum, of every family in towne, or a peck of Indian corne if they have not wampum.

POPULATION OF SPRINGFIELD.

In 1636 eight persons signed the articles of agreement for the settlement of the Plantation. There are, however, reasons for believing that the original number of settlers exclusive of women and children was twelve.

In 1639, 13 persons were assessed.

In 1641, the number had increased to 17.

In 1643, there were 22.

In 1646, 42 persons were assessed.

In 1656, there were 52 who had taken the oath of fidelity.

LIGHTNING RODS.

The Subscriber is prepared to furnish and put up *Spratt's Patent Insulated Lightning Conductor*, (manufactured by *L. Wilcox*, Hartford, Conn.) and pronounced by scientific men, to be superior to any before offered to the public.

L. C. BURT, Agent.

RECOMMENDATION.—The Lightning Conductors on the plan of J. Spratt of Cincinnati, appear to be very well devised, and in point of mechanical construction are the best I have ever seen. It is to be hoped that the use of these rods may become general as an important auxiliary defense against a danger which must be regarded as of no ordinary magnitude, to which all buildings are liable. B. SILLIMAN JR.

Louisville, Jan. 27.1851. Prof. Chem. in the Univ. of Louisville.

J. Spratt's Lightning Rod Conductor was submitted for examination, and the following certificate was given :

In the above recommendation by Prof. Silliman Jr., we fully concur. B. SILLIMAN Sen.

PALMER'S PATENT ARTIFICIAL LEG!

MANUFACTURED BY

MESSRS. PALMER & CO.,

At 5 Burt's Block, Springfield, Mass,, and 376 Chestnut Street, Philadelphia, Pa.

THIS Artificial Leg is conceded to be the best that is made in America or Europe; constructed on strictly anatomical principles; the least distinguishable from the natural limb, and the most useful, durable, and economical.

The United Service (Military) Gazette, London, says, "Every other kind is dear at any price, and their substitution for the human limb the greatest part of the catastrophe." This limb in every instance of competition with every other kind, has received the highest premiums from all the Institutes in the United States for the promotion of science and the arts, to wit:—Twenty Gold and Silver Medals and Diplomas. At the World's Fair, at London, 1851, in competition with thirty other varieties, (the best of London and Paris artists,) it received the PRIZE MEDAL, as eminently the best. It is now worn by nearly eight hundred persons, with pleasurable satisfaction. It has the unqualified approbation of all the principal Surgeons in Europe and America, who may be consulted by those in want of Artificial Legs.

WEBSTER'S QUARTO DICTIONARY.—Everybody knows about Webster's Dictionary, and every man, woman, and child, ought to have access to it.

It will tell you everything, with regard to your mother tongue, which you want to know. It is a great labor-saver—it has saved us time enough in one year's use to pay for itself: and that must be deemed good property, which will clear itself once a year. If you have any doubt about the precise meaning of the word *clear*, in the last sentence, look at Webster's thirteen definitions of the v. t. — *Massachusetts Life Boat, April* 28, 1852.

CHICOPEE DIRECTORY.

PREFACE
TO THE CHICOPEE DIRECTORY.

The former connection, and present business relations existing between the city of Springfield, and town of Chicopee, render the incorporation of a Directory of the two places eminently proper and desirable. With this view, the publisher has secured the services of Mr. E. F. Brown, of Chicopee, and H. H. Jewell of Chicopee Falls, and through them, has prepared, at considerable labor and expense, a new, and it is believed full and accurate Directory of the town of Chicopee, embracing Cabotville and Chicopee Falls, with complete lists of Town Officers, Manufacturing Corporations, Banks, &c. It was the intention also of the publisher to have added a new Map of the town, but unexpected obstacles have necessarily delayed its execution until another year.

In respect to the numbering of the streets, in the Directory, it is to be noticed:—That the several Manufacturing Companies number separately and distinctly the houses of each corporation—consequently the residence of those occupying these houses, are indicated by both the number and corporation to which they belong, without reference to the street on which they are located. The numbering in Cabot, Perkins, and Dwight streets proper, consequently, will commence on South side of Exchange street. Exchange street has been numbered from Leavitt's corner to Dwight street, making 37 Stores on South side of said street, using half numbers for second stories and basements. As there are no vacant lots this numbering may be considered permanent, and the residents of that street have decided to affix numbers to each store.

AMES'S MANUFACTURING COMPANY.

The Ames' Manufacturing Company's works, are situated in this village, and are quite extensive. They are engaged in the manufacture of MACHINERY, in all its varieties, and can fit up a *Cotton Factory or Machine Shop* with every requisite, from the Water Wheel to the Polishing Wheel for giving the last finishing touch. They have also connected with their works, a large FOUNDRY, in which is made every variety of iron and brass castings, also one in which they cast most beautiful cannon for the government of the United States, Sovereign States, individuals, and for ships use. Also BRONZE STATUARY of every description. This last is a new branch of manufacture, not only by them, but in this country, and has proved quite successful in every particular.

The SWORDS manufactured by this Company for the United States government, for presentation, and for individuals, have already acquired a world wide renown. Within the last two years, there has been added to this department the manufacture of SILVER, GOLD and PLATED WARE, and although this business has never before been attempted in this country, obstacles have been overcome, and many of the fashionable hotels in our cities, and the ocean and river steamers, have availed themselves of the opportunity of procuring articles of American manufacture, superior not only for ornament, but for utility.

Visitors are at all times made welcome to pass through the establishment, and a visit to their extensive Show Room, well repays one for their time and trouble.

The Capital Stock of the Ames' Manufacturing Company is $250,000. Number of workmen, 250, to whom $8000 in cash is paid monthly for their labor.

The officers of the Company are JAMES T. AMES, Agent JAMES M. SMITH, Superintendent. JAMES LYMAN, Cashier.

HAYNES & COMPANY'S
MAMMOTH
Clothing, Cloth, & Outfitting
HOUSE,
OAK HALL BUILDINGS.

The above establishment, although having been in existence but about four years, has already taken a position entirely in advance of any similar House in New England, and by the rapidity of its growth and the great extent of its business, has created no little astonishment among the Slow Coaches of this heretofore quiet valley. And when we consider this gigantic establishment of to-day we cannot but admire the perseverance, shrewdness and judgment, as well as desire to learn the system which has produced such happy results and so generously rewarded the enterprise.

Mr. Haynes has for one of his first maxims, the great principle that no trade is permanent, but that which is advantageous to the buyer as well as the seller; and consequently, whether the customer knows the value of goods or not, he takes pride in giving him a full equivalent for his money, thereby gaining the confidence of every one with whom he comes in contact. Every article sold is guaranteed to be precisely as recommended or the money refunded, and no customer is allowed to retain any garment unless it shall give perfect satisfaction; a system pursued by no other House. These things, together with their Low Price, Cash Plan of Small Profits, and No Losses, has given them a trade that is permanent and continually increasing. No man better knows the value of the Press. Printers' Ink has invited his customers, good treatment and great bargains have induced them to send their friends. H. & Co. devote themselves entirely and exclusively to this trade, and the result has been that they are continually enlarging the house for their legitimate business, instead of monopolizing a dozen different trades to support one establishment conducted on the jockeying system. We are glad to record the result of H. & Co.'s system, as it not only assures us of what a judicious system of advertising will do, but also urges the importance of an honorable system in order to give business permanence.
